

The background of the entire poster is a photograph of the Great Pyramids of Giza at sunset. The sky is a mix of purple, orange, and yellow. Overlaid on the image are several yellow geometric shapes: two large triangles in the upper left that overlap each other and the pyramid, and a stylized logo in the center consisting of two triangles meeting at a point, with a horizontal line below it that has several diagonal segments.

WHO WILL RISE TO THE TOP OF THE PYRAMID?

CHICHEN
ITZA

Chichen Itza is one of the New 7 Wonders of the World. Archaeologists are still determining when, exactly, the building of Chichen Itza began, though historical records suggest that the city was in its early phases of development around 600-750 A.D. The growth and development of Chichen Itza span several centuries. Most estimates put the city at well over 1,500 years old. Historical records show that Chichen Itza was a major focal point in the Northern Maya Lowlands and a vibrant city was populated by more than ten thousand people - a very large community for the time.

THE NUBIAN PYRAMIDS

There are hundreds of pyramidal tombs in the region of central Sudan once known as Nubia, built mostly out of reddish sandstone. About 40 of them are located in Meroe, a major city in the Kushite kingdom from about 300 B.C. to 300 A.D. The Nubian pyramids are smaller than the Egyptian pyramids, and more narrowly shaped. Although they have suffered from plunder and decay over the years---an Italian explorer smashed the tops off many of them in the 19th century, apparently seeking treasure---they remain a remarkable sight.

PYRAMIDS OF THE WORLD

WHO WILL RISE TO THE TOP OF THE PYRAMID?

MYAN PYRAMIDS OF TIKAL

Tikal was an important urban and ceremonial center for the Maya from about 300 to 900 A.D., and they built many monuments there, including five pyramidal temples. The tallest---Pyramid IV, topped by the Temple of the Two-Headed Serpent---is 213 feet high. After the Maya abandoned the site, these pyramids lay largely forgotten in the rainforest for nearly 800 years. European explorers re-discovered them with great excitement in the 1850s, leading to several major archaeological expeditions and digs. The area is now a UNESCO World Heritage Site.

MEET YOUR 2025 ADJUDICATORS

KATE HANSON

As a dedicated and passionate Canadian dancer, Kate began her journey into the world of dance at a young age, immersing herself in a broad range of styles including ballet, jazz, tap, lyrical, musical theatre, and hip hop. Her foundational training was enriched with an in-depth study of modern and contemporary dance at the School of the Performing and Visual Arts at Central Memorial High School. Kate's pursuit of professional excellence led her to Toronto, where she attended the George Brown Commercial Dance Studies Program. There, she broadened her skills to include theatre performance, vocal training, and acting, building a strong foundation in stage presence and character portrayal. This training has enhanced her versatility, enabling her to connect authentically with audiences and bring depth to her work as a performer and choreographer.

In the years since, Kate has continued to deepen her expertise in contemporary dance, drawing inspiration from notable figures such as Justine Reeve, Peter Jasko, and Eric Franklin. Through these studies, she developed a unique understanding of improvisation theories, which has profoundly influenced her creative work. Kate's diverse influences and experiences have allowed her to study and perform an array of dance styles, collaborating and working with esteemed movers like Hanna Kiel, Lauren Cook, Michelle Moss, and Megan Lawson. Her pursuit of artistic growth led her internationally; she trained intensively with Joeri Dubbe (NDT) in Florence and worked under the guidance of Nita Little (USA) and Iñaki Azpillaga (Ultima Vez) in Vienna. Over time, Kate has earned recognition as a skilled and respected choreographer, teacher, and adjudicator within Canada's dance community, contributing her talent to a range of film and live theatre productions across the country.

Kate's evolution as an innovative choreographer has been evident in her work with youth, pre-professional, and professional dancers alike. Her passion for imaginative, distinctive creation began early in her career and remains a guiding force behind her success. Kate is known as a respected choreographer, teacher, and adjudicator, contributing to film and live theatre projects nationwide. Her choreographic works have appeared at Toronto Original Choreographer's Ball, Fever After Dark, New Blue Festival, and in several pre-professional programs, reflecting her distinctive, playful, and imaginative style.

Today, Kate continues to explore her unique artistic voice through a range of passion projects that allow her to push the boundaries of movement and expression. As a versatile educator and choreographer, she leads workshops and sets choreography for studios across Canada, eagerly sharing her evolving research and artistic discoveries with the next generation of dancers.

WHO WILL RISE TO THE TOP OF THE PYRAMID?

ZIGGURAT OF UR

The word ziggurat (from a Babylonian word for “tall or lofty”) is used to describe tiered temples like this one in Mesopotamia, but the design of successively receding layers could also be called a step pyramid. This ziggurat, built for the Sumerian king Ur-Nammu in the mid-21st century B.C., once had three stories of terraced brick connected by staircases. It eroded over time and was restored by the Babylonian king Nebuchadnezzar II in the 6th century B.C., then again by archaeologists in the 20th century. Tallil Airbase is now located nearby.
